

VISLON® AQUAGUARD® FR

YKK

Little Parts. Big Difference.™

Fastening Products Group

VISLON® AQUAGUARD® FR

Combining water repellency and flame retardant technology.

With a PU laminate on a flame retardant tape, Vislon® Aquaguard® FR was designed using YKK's patented VT technology as a possible solution for use in garments intended for EN ISO 11612: 2015 certification making YKK's Vislon® Aquaguard® FR a one stop solution as a combined water repellent and flame retardant zipper.

Feature Points

Water Repellent

- This item has passed YKK's internal showering test.

Lightweight

- Lightweight compared to a conventional flame retardant zipper with metal elements

Flame Retardant

- Flame retardant: EN ISO 11612:2015, clause 6.2.1 (Heat resistance at 180 degree).
- Flame retardant: EN ISO 11612:2015, clause 6.3.2.3 limited flame spread (with 5 x cleansing pre-treatment at 60 degree centigrade)
- All parts included are flame retardant (Tape, PU film, Elements, Slider)
- FR Slider is available in both die cast and plastic.

Item Codes

Size	Chain	Tape	Classification			Slider	Special Feature Code
