

A mono-plastic material zipper for easier recycling

Vislon® Nylon

A zip is a complicated accessory, consisting of multiple elements that are difficult to separate. Due to its almost entirely polyamide structure, this new zipper can be easily recycled together with the nylon garment on which it is sewn, without the need for removal.

- Mainly Nylon
- Sustainable zip
- Designed to be made again

Description: VSN1OR-56 NA9 EX N14 N-ANTI NEWKOB4 OP-NW2P
Size: n°5 only
Function: Closed-end/Open-end/Two-way/Roll chain
Colour: Black only
Slider*: Nylon, automatic lock, enameled
Slider finish: Standard enameling (EW), metallic paint (EB), matte paint (EX)

Metal like, but so much lighter!

Vislon® Delta with mirror like finish

The triangular shaped element gives a unique chain appearance. Additionally, a mirror like foil on top of the chain with an optical effect makes the elements appear thinner than they are. The result is a strong item with no risk of rust.

- Mirror like foil covered elements
- Narrow chain elements
- Lightweight

Description: VDEXMJOR-86 DAPUB280 S6S P16 LF-SIL N-ANTI T-FILM
Size: n°5, n°8
Function: Closed-end/**Open-end**/Two-way/Roll chain
Colour: Metallic foil colour: **silver, gold, copper**
Slider: Automatic lock, silver plating
Tape: Polyester

Application:

Comfort

Easy positioning with a flat knit zip

Flatknit®

Our Flatknit® zipper has a soft and low profile tape that is also narrow, which means that a facing or lapped seam is not required! Saving fabric as well as reducing the thickness of your design. This is also great for your lightweight, packable products.

- For flat and sleek application on trousers
- Innovative time and fabric saving solution
- Lightweight

Description: Chain: 25 FK CHAIN BP04 DYED BOBIN-S
